

## The Island

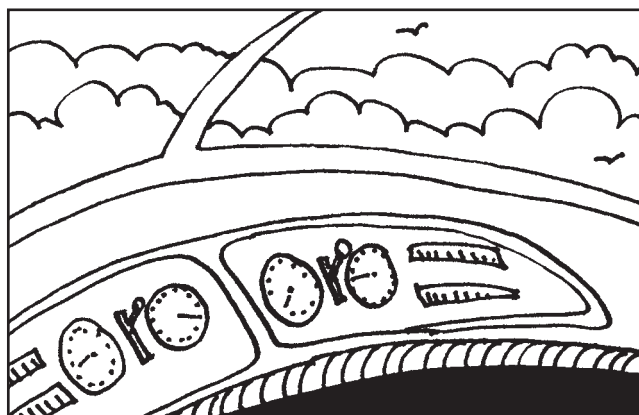

*Who are you?*

*You are a pilot whose plane has engine trouble. You have also lost radio contact with ground control.*

Name \_\_\_\_\_

Date \_\_\_\_\_

# 1: The Beginning

## Task 1.

In groups, discuss the dangers of the plane coming down in the sea or on the island. Which do you think would be the least dangerous?

## Task 2. 'Use Passenger Profiles' (pages 2 & 3).

Look at the profiles of the passengers on the plane and state briefly how each one might be useful on the island. Remember, it might be some time before you are rescued and there may be dangerous animals and hostile natives on the island.

## Task 3. Use 'Six of the Best' (page 4).

Make a list of the 6 passengers you think would be most useful on the island. Then indicate 4 personal qualities you would like your castaways to have.

## Task 4.

Explain clearly to your group why you have chosen the 6 passengers. Be ready to defend your choice. Others may disagree.

## Task 5.

During your stay on the island you keep a diary. Write your diary for the day you set off in the plane.
